

Civil Service Success Ensures Its Students Pass Civil Service Exams With Flying Colors

The institution has prepared thousands of applicants for civil service exams in New York over the last 50 years

Sayville, New York—To Be Dated: Civil Service Success is a New York-based tutoring company that offers preparation courses for people taking civil service exams. The institution prepares applicants from New Rochelle, Brooklyn, Jackson Avenue, Woodside, and Staten Island using workshops and past exams.

“Civil service exams come every 4–6 years, and only a few hundred candidates are chosen after hundreds of thousands take the test.” – Civil Service Success

Civil service exams were designed to filter the best candidates. Applicants are tested on reading and comprehension, writing proficiency, critical thinking abilities, emotional intelligence and work ethic.

Civil service exams are different for each sector of the civil service. Each exam is tailored to a specific sector to ensure that the best candidates make it through their respective training centers or academies.

Here’s what a representative of the company had to say about its services:

“In our 50 years of experience, we’ve found that most candidates don’t know what they’re getting into when they register for a civil service exam. They often make the mistake of taking it lightly, not knowing how influential it can be in changing their lives for the better.

Civil service exams come every 4–6 years, and only a few hundred candidates are chosen after hundreds of thousands take the test. We encourage all applicants to take the civil service exam seriously, and to go through preparation courses through reputable institutes like ours.”

Civil service exams consist of several portions; applicants are asked numerous questions that are designed to assess their problem-solving, reasoning and critical thinking abilities. Civil Service Success not only familiarizes applicants with exam questions, but also tells them how to answer them in a way that presents them in the best light.

“In addition to teaching applicants how to answer questions, we also provide them with knowledge on background investigations, physical abilities test, and oral interviews,” says a spokesperson for Civil Service Success.

The institute prepares applicants for the NYC Firefighter Exam (FDNY), Suffolk Country Police Exam, NYC Police Exam, and NYC Sanitation Exam.

Applicants who have registered for civil service exams in April can sign-up for preparation courses today.

About Civil Service Success

Civil Service Success is a New York-based private tutoring company that has been offering outstanding exam preparation services to civil service candidates since the 1960s.

They provide holistic knowledge on the hiring process, including the background investigation, psychological exam, physical ability test and oral interview.
